

MOMO IMPORT PARAMETERS

Momo obtains data from the microbiological laboratory information system (LIS). Data transfer can be direct, through an interface, or via a communication server. In order to achieve full functionality of Momo, the following input parameters are **required**, recommended, or *optional* (full list on demand):

VARIABLE	PARA	METER ENGLISH	DESCRIPTION	NECESSITY	PARAMETER GERMAN
winet					
and mathematical	Patient D is Hough	urs the	Autorst ID to Tecephal's DMR	teringer	National & In Eartherhead Normation option
Colored Automatics	Instanto Nation		Autorit's insurance number/social anarity number	spined	0.00
CT Automation	Last Name		Patient's last same/family same	required	Nachranne
tor name		Country (Paties	Patient's first came/given came	monormited	Terraria
CONTRACTOR AND	PATIENT	Remarks on Patien	Asteri's same at tority/mailine same	aptional	Gallactorama
	TIENT_ID	Patient ID in Labor	atory	required	Gase/Macht
		Tatient ib in Eabor		required	Selourisdorum
Hospi	ital Stay		to in posts	antered	Ather in Jahren
CASE	NUMBER	Case Number in Ho	ospital's FMR	spilland	Ather in Taget
			place of residences	spliced	Studie (Advece des Patienter)
HOSPI	ITAL_ADMISSION	Admission to Hosp	ital (Date + 1 im	antional	PLJ (Advesse des Patienten)
HOSPI	ITAL_DISCHARGE	Discharge from Ho	spital (Date + Tir	and a second	Radi (Adress de Palariter)
TRANS	SFER	Transfer (Date + Ti	me)	and a second	Land (Adresse des Patienten)
DEPAR	RTMENT_NAME	Department	ar patient	applicant .	Bernarliungen zum Patiantian
1.77				gettered	Patienten II in Laborinformationsystem
DEPAR	RTMENT_CODE	Department (Code			
Samp	le Collection		height/1 (1988)	aptional	falsuring in Earlierhautichernationsplant
		Sample Material	of the patient's admission to the height?		Automa (Carlierhaut)
			a of the patient's durburge here the beautie	monormial	Inferring Residentians)
	RIAL_CODE	Sample Material (C	ode)	mannenied	Weingt an
MP.	LE_COLLECTION	Sample Collection	(Date +	monormited	Appellung
energed core	TION_SITE	Sample Collection	Site	morenaided	Attaliang Code
ample Callection		Sample Origin			
ACCESS AND	IN AIVIE	Sumple Origin	Name of sample material	anguined a	Waterial
ALC: U.S. (1997)	Gample Material (united in the second se	Code/ID of sample material	required	Waterial Code:
and countries			Date and time of sample collection	required	Datum die Unitaliste die Probessratierigh
00.0174098.0770	Earnple Collection		Sample collection site on patient's leady	required	Entraferant
AND COLOR AND			Name of department/unit/ward often sample was taken	required	Enurolemia Alteriung
		ter i	Color/ID of department/unit/ward where sample was taken	required	Ensembersh Mittallung (Calif)
MONR. 02	Order 0		Sumher assigned to lab order according to order form	required	Adrogenumme
48.02	14.0		O assigned by the UI agent sample reception to uniquely identify a lide report through	required	L0-0
			And it care frough the lab		
AND ALCOPTON	Gample Received		Data and time of sample acception is lab	expired	Laboreringang an
HOLE READER	Reason for Lab 0	- dar	Resson for lab order	antinui	Ensemblighted
RODACY	Urgency		Organizy of lab order	antined	Drughtmast
Chevelot, 1-48, CHCOR		Inder	Optional senants as lab ander	aptional	Benadurger son Liberading
NUT AND ADDRESS	Requested Test		Yest that was requested in lab order	optional	AugeNorderie Unterschung
ECT PORTORNED	Referred Test		Yest that was performed in lab	antined	Durchgelührte Untersuchung
units, purpose	Sample Divided	the (Number)	Number of parts the sample was divided into (e.g., second blood collection takes for different tasking purposes)	spitional	failung der Profer in (Ansahl)
			Towners and Personal		1
lagran 1					
eron seven-row	Report Generated		emarks on lab result	empired	Befundentellung an
encies, saue	Monthlegy			required	Mile of the legit
Automatical Costant	Munking Co		e of antibiotics or antimycotics	required	Minutesingle Carlot
			ode/ID of antibiotics or antimycotics		
scholages, guarante	1 Pathogen Quartit	6	Minimum inhibitory concentration (MIC)	mannenini	Kofueden fairmange
Exempts, NCHOLEN Remarks on Falls			Antimicrobial resistance (AMR) to antibic mediate, sensitive (RSI)	and the second second	Renardurgen aus Urogen
Chandler, 1.48. Million	(1) Remarks on Lab	lana di		aptional	Benachunger son Laborergebris
ATTRACTICS, Annual	Antilization, Sector		Optional remarks on antimicrobial resist	required	Antibuction, instrugentions
**********	Antilization, Sector		proval status of lab report (not yet	required	Antibiothurs, Antirephothure: Code:
		ry (anaritation (MIC)	of person who gives approv	required	Miningle Nerrolanseritation (MPR)
	Antimic robust Re-		el person who gives uppro	required	Residence (MMR)
			abort recipion		
(header), and		nicrollial Resistance Pattern		optional	Benachunger sam Antibiogramm
prepara, pranus	US Approval Status		Approval status of tak report just pet approval preliminary approval	equival	Valerungestatus
PROVED BY	Approval By		Name of person who gives approval for lab report	aptional	Walkert own
eros scores s			Name of tab report excipient (department/unit/ward)	mannended	Beforderspfargende Attellung
server accredit o	1014 August Recipient		Code/E of ide report excipient (department) unit/ward	monormial	Behandengelangende Attaliang (Code)

Some of the parameters in this list are based on thesauri. For full MOMO functionality, the following thesauri are required:

- MICROBIOLOGY
- SAMPLE MATERIAL
- ANTIBIOTICS/ANTIMYCOTICS
- DEPARTMENTS

Find more information on how MOMO works with thesauri and how to obtain thesauri for your hospital on our corresponding information sheet.
